PROFILE

Frontend/Fullstack Developer with freelance experience in React and Next.js. Currently studying Computer Science at TUHH (2nd semester). Looking for a Werkstudent position (up to 20h/week) to contribute to modern web applications while continuing my education.

EDUCATION

TUHH	Hamburg, Germany
Bachelor of Science - Computer Science	2025 - Present
Studienkolleg Hamburg	Hamburg, Germany
T Kurs - Feststellungsprüfung	2024 - 2025

WORK EXPERIENCE

Freelance	Jan 2023 - Present
Fullstack developer	

- Delivered end-to-end web solutions, ranging from building applications from scratch to executing complex legacy migrations.
- Migrated a large-scale production React SPA to Next.js (SSR), fully refactoring UI components, routing, and Redux state management.
- Significantly boosted Lighthouse scores, Core Web Vitals, and overall SEO by strictly focusing on performance and accessibility optimizations.
- Collaborated directly with clients to gather requirements and reliably deliver high-quality, maintainable code on schedule.
- Tech Stack: React, Next.js, TypeScript, Tailwind, Redux.

Personal projects	2022 - Present
--------------------------	----------------

- Architected and developed complex SaaS platforms (Relinxr, Dilemma, PulseNode) and open-source solutions (d1lemma).
- Built products entirely from scratch, managing the full development lifecycle including UI/UX design, frontend/backend architecture, and deployment.
- Ensured high performance and reliability with a strict focus on real-time analytics, security, and clean code principles.
- Tech Stack: React, Next.js, TypeScript, Node.js, MongoDB, Prisma.

SKILLS

- Core Stack: React, Next.js, TypeScript, Tailwind CSS, Redux, MongoDB, REST APIs
- Language: English (C1), German (C1), Russian (Native)
